OUR SERVICES

Regrinding and making cutting tools for machine shops, tool rooms and factories

01

End Mill Regrinding

2, 3, 4, 5 and 6 flute end mills, 4 mm to 20 mm diameter, restored to sharp, accurate cutting condition.

02

Ball Nose Regrinding

Ball nose end mills up to 4 flute, 4-20 mm. True radius and smooth finish restored for die and mould work.

03

Drill Bit Sharpening

Correct point angle and clearance for straight, clean holes and longer tool life.

04

Chamfer Tool Regrinding

Sharp edges and the right chamfer angle for consistent edge breaks.

05

Center Drill Regrinding

Accurate centering and a clean start for turning and drilling jobs.

06

Corn Mill Cutter Regrinding

Roughing cutters restored for heavy stock removal at low cost.

07

Custom-Made Cutting Tools

Special and non-standard tools made to your drawing or sample.

08

Side Radius End Mill Regrinding

Side and corner radius restored on end mills from 4 mm to 20 mm for accurate profiles and strong corners.

SUPPORTED

All cutters: 4 mm to 20 mm diameter

End mills: 2, 3, 4, 5, 6 flute | Ball nose: up to 4 flute

SHARP WHERE IT MATTERS

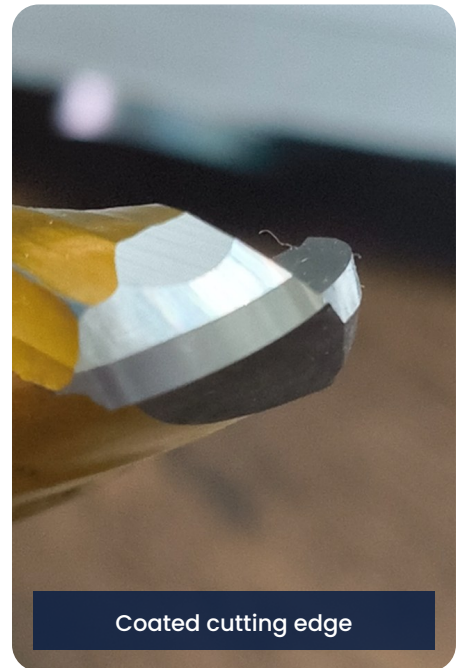

Close-ups of the cutting edge

Multi-flute end mill

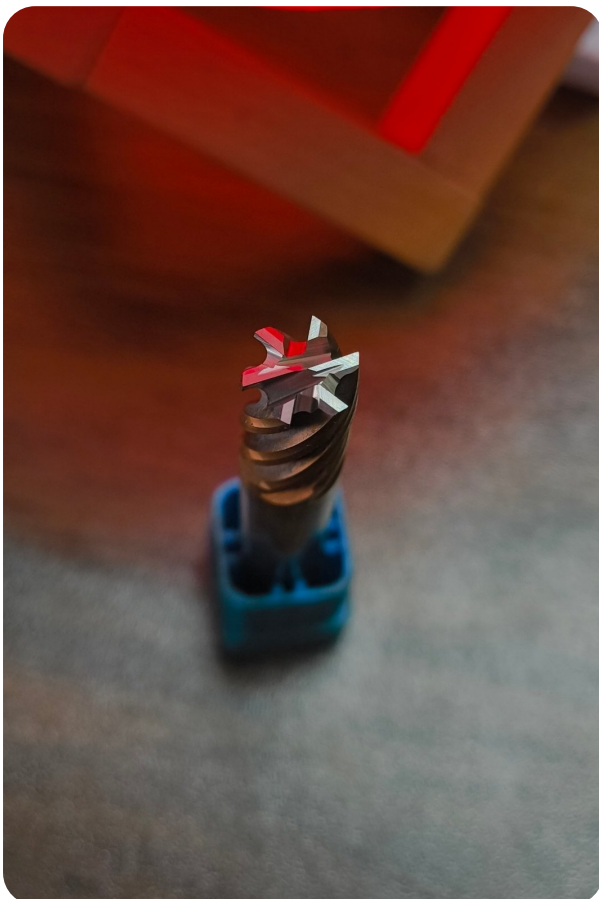

4 flute end face

Coated cutting edge

WHY REGRIND INSTEAD OF BUYING NEW?

- ✓ **Cost less**
A reground tool costs a fraction of a new one.
- ✓ **Use it again**
Good carbide and HSS tools can be reground more than once.
- ✓ **Cut better**
Sharp edges mean cleaner finish and less load on your machine.
- ✓ **Stop waste**
Worn tools go back into production instead of the scrap bin.

HOW IT WORKS

Simple, quick and handled end to end

1

Send your tools

WhatsApp a photo with tool type, size and quantity. Courier or hand over the tools.

2

We inspect & quote

Every tool is checked for wear and damage. You get a clear price before work starts.

3

Precision regrind

Cutting edges and angles are ground back to correct geometry on our grinder.

4

Back to you

Ready tools are packed and dispatched, or ready for pickup.

WHY SHAKTI MILLING WORKS

Pan-India service

Pickup and courier from anywhere in India.

Bulk lots welcome

Machine shops, tool rooms and factories.

Custom tools

Special tools made to your drawing or sample.

Local roots

A Yamunanagar workshop in the heart of the industrial belt.

SEND US YOUR WORN TOOLS

Send a photo on WhatsApp with the tool type, size and quantity, and get a quote.
